Griffin Hemstreet

Dear Mayor Strazdas,

One day I was walking with my Dad at lake view park and I saw people fishing , playing basketball, tennis, football, volleyball, running and playing on the playground. When I was walking I thought what a nice place to live. I love portage because of sporting events, special events and places to see.

One thing I like about portage is the sporting events like Portage Rocket Football. This sporting event is special to me because I see people watching me play and cheer me on and I have a team that supports me and we play at Ramona Park and it is really nice there.

Some places to see are the Air Zoo, Lake View Park and Lake Center. One reason I like Lake Center is that they help me learn math, spanish, reading, art, music, stem, soc. Studies and writing. I like to go to the Air Zoo because I like to see the planes and the old guns and equipment they used World War 1 and 2. I like Lake View Park because I live right by it so me and my dad can walk right to it and play football, and go fishing, running and walk around.

Some special events I love to go to are the 4th of July fireworks at Mccamley Field, the Memorial Day Parade and watching the lights go on. I love watching the 4th of July fireworks with my dad because we go there with my family and watch the fireworks. I also like to go to the Memorial Day Parade with my family every year. I love to watch the lights go on with my dad because they are beautiful.

Just imagine you in a city with parks everywhere and so many places to see and a lot of sporting events. Would you want to live in an area like this city and everything close by. I think it is an great place to live.

Sincerely,

Griffin Hemstreet
