

I love Portage!

Portage is the best I know it, yes I do, and you should too. There are so many reasons why I love Portage. One reason is that Portage has an awesome public library; the library is so quiet and has a cool kids section. Also Portage has a lot of different cultures. You can taste so many different delicious foods. Next, Portage has the huge Celery Flats Park. Celery Flats are historic and have scenic views. They also offer something for everyone at Celery Flats. You can go running, biking or just walk the path. You can also canoe or kayak on the creek, next to the path.

Portage has great sports fields. The fields are not bumpy so they are super safe. I play lacrosse so I know the fields are great. Then, Portage has an extensive bikeway system; all of the paths are sights for sore eyes. Finally, Portage has award winning public schools. They have cool teaching equipment. Now, I hope you remember to move to the great city of Portage!
