I Love Portage!!!!!!

I love Portage! It's like the chocolate chips to a sweet cookie. There are too many reasons why I love Portage. One reason why I love Portage is because of beautiful Portage Creek. It's so sunny there that I could never leave. There are a lot of rippled, different leaves too! And even better! We have TONS of fun teachers! They are hilarious, and best of all, they are all unique in their own special way. In addition to that, we have great public schools! They're all educational and interesting and they all make learning FUN!

What we're really lucky to have is historical Celery Flats. It's so delightful to be there! The fresh air and the long trail make the place even better! But, the BEST thing we have in Portage is our outstanding public library! It's so interesting there! And it's so quiet! What I love most about them though, is their fun reading programs! So now you can see how much I love Portage! So if anyone visits Portage, I hope they will stay here!
