Why I love Portage Essay: Portage is My Home

Portage is such a wonderful and welcoming town that I usually take it for granted. I have lived my entire short life in Portage, and I can say that this city is better than the rest. Which is why I so dearly love Portage. Whether it be the assortment of restaurants to eat at or the many parks and walking trails, Portage is out to serve everyone, which is why I'm hardly ever bored. There is just too many things to do and to see. I also like to hang out at the Portage District library because it's a quiet place to get my school work done but also fun place to do activities during the summer time. I really like and appreciate the library being open to students and when the library holds a day for just students to study before exam. As this couple hours of studying at the library really pays off when I take my exams. Whether is be summer fall winter or spring, Portage always have things to do. During the summer, when I want to do something fun with my friends, I go to the Portage Dairy Queen. There I order soft serve ice cream and enjoy it with my friends on the Celery Flats walking trail as the trail is calm and cool. Another thing is that I love all the colors of the changing leaves and Portage has so many trees that during the fall time the leaves change into all sorts of color, putting on quite the show picece for all to see. During the winter I love getting snow days because we can drink hot chocolate and play in the newly fallen snow. Also, I like to watch everything thaw out and begin to come to life and a cold winter. Like

when the trees begin to bud and when the flowers begin to bloom. I love Portage because of the fact that we get all four seasons and are able to experience the best parts of all of them. However, the most important reason of why do I love Portage is most definitely the fact that this place in my hometown. The place that I'll look back at and think of all the great memories made in this town. And for that I am so thankful and eternally in debt. But I what I can say with a whole heart is, Portage, I Love You.
