Angling Road Storm Drainage Improvements South of Squire Heath Lane to Romence Road

The Angling Road storm drainage improvements project from south of Squire Heath Lane to Romence Road is set to begin on June 15, 2022, weather and materials permitting. Construction will consist of storm sewer improvements and restoration.

During construction, the roadway will be closed to through traffic. The detour route will be West Centre Avenue, Oakland Drive, West Milham Avenue to Angling Road. The project is set up in phases with rolling road closures starting on the south end and moving to the north as each phase is completed.

The City of Portage engaged Abonmarche Consultants for the engineering on this project and Lounsbury Excavating, Inc. for construction. The total cost for the project is \$789,861, which is estimated to be completed in August 2022.

Updates regarding the Angling Road storm drainage improvements project can be found at portagemi.gov/295/Construction-Projects or by subscribing to the Road Construction Updates Notify Me category at portagemi.gov/lists.aspx. Questions may be directed to the Department of Transportation & Utilities at (269) 329-4422.
